Author Index for Volume 93

BAKER, KIRBY A.: Strong shift equivalence and shear adjacency of nonnegative square integer matrices, 131

BAPAT, R. B. and KWONG, MAN KAM: A generalization of $A \circ A^{-1} \geqslant I$, 107

BYERS, W.: Matrices induced by endomorphisms of finite sets, 81

CAO, ZHI-HAO: Residual error bounds of generalized eigenvalue systems, 113

CHAN, GIN-HOR, LIM, MING-HUAT, and TAN, KOK-KEONG: Linear preservers on matrices, 67

CHANG, SIN-CHUNG: On the product of convex combinations and the Kantorovich inequality, 9

CHILLAG, DAVID: Generalized circulants and class functions of finite groups, 191

CHU, KING-WAH ERIC: The solution of the matrix equations $AXB - CXD = E$ and $(YA - DZ, YC - BZ) = (E, F)$, 93

DON, F. J. HENK: On the symmetric solutions of a linear matrix equation, 1

FISCHER, P.: Substochastic matrices and von Neumann majorization, 247

GELDENHUYS, G. and SIPPEL, C.: Bounds for the real eigenvalues of a cascade matrix, 127

HIGMAN, D. G.: Coherent algebras, 209

KRÄUTER, ARNOLD R: On the greatest distance between two permanental roots of a matrix, 39

KWONG, MAN KAM: *See* Bapat, R. B.

LIM, MING-HUAT: *See* Chan, Gin-Hor

MILASZEWICZ, J. P.: Improving Jacobi and Gauss-Seidel iterations, 161

MÜLLER, VLADIMÍR: On the spectrum of an infinite graph, 187

NG, C. T.: The equation $F(x) + M(x)G(l/x) = 0$ and homogeneous biadditive forms, 255

RUSSELL, A. M. and UPTON, C. J. F.: A class of positive semidefinite matrices, 121

SAITOH, SABUROU: Quadratic inequalities deduced from the theory of reproducing kernels, 171

SIPPEL, C.: *See* Geldenhuys, G.

TAN, KOK-KEONG: *See* Chan, Gin-Hor

TRENCH, WILLIAM F.: A note on solving nearly triangular Toeplitz systems, 57

UPTON, C. J. F.: *See* Russell, A. M.

VANDEWALLE, JOOS: *See* Van Huffel, Sabine

VAN HUFFEL, SABINE and VANDEWALLE, JOOS: Algebraic relationships between classical regression and total least-squares estimation, 149

WATERHOUSE, WILLIAM C.: Elementary divisors of s-symmetric matrices, 241

WEICHSEL, PAUL M.: Polynomials on graphs, 179
